Request Title (Short Title)	Michigan FPL Demographics			
Data Request Description	We are requesting a breakdown by age and gender of the number of individuals in Michigan at 100%, 150%, 185%, and 200% of FPL.			
Why is the Data Needed?	We are exploring a model that would expand Medicaid coverage to individuals above the current poverty level.			
How will the Data be Used?	In order to do an effective analysis of this model, we need to know the current number of Michigan at these FPLs to see how many people could be impacted by this model.			
How will Use of this Data Further SPG Project Goals?	This data will give the SPG Project more information on the population of low-income individuals in Michigan.			
When is the Data Needed?	Next Models Development meeting			
What Potential Sources for this Data has Your Group Identified?	None
